LIBERTY DAY PROCLAMATION.

By the Governor.

next will be the first anniversary of the signing of the armistice in the Great War, and inasmuch as the Michigan Legislature in the session of 1919 passed an act making it the duty of school officers and teachers to have the schools under their charge observe said day with appropriate commemorative exercises, it seems fitting that the day should not be allowed to pass without attention being called to its significance.

Therefore, I, Albert E. Sleeper, governor of the State of Michigan, do issue this my proclamation and hereby request a proper and appropriate observance, on the part of the people of this State, on the eleventh day of November, 1919.

I further request that this proclamation be read in all the schools of the State.

ALBERT E. SLEEPER,
Governor.

JOHNSON—KLEIHEGE.

The marriage of Mary Elizabeth Kleihege of 96 Russell street, and Mr. Carl G. Johnson of Pontiac, Mich., took place at St. Joseph's church, Fr. Schmidt officiating. The bride, who was given away by her brother, Henry Kleihege, wore a beautiful dress of white satin trimmed with pearls, a tulle veil held in place with orange blossoms, and carried a shower bouquet of white roses and lilies-of-the-valley. The bride's maid, Miss Bertha Kleihege, wore a dress of pastel shades of georgette, a hat to match and carried a bouquet of orchids and pink chrysanthemums. The best man was Raymond Miller of Chicago and little Jane Kleihege was the flower girl and carried a colonial bouquet. The boy's choir furnished the music.

After the ceremony, a wedding breakfast was served at the home of the bride to the immediate family and relatives. The out of town guests were Mr. and Mrs. Chris Johnson of Fond du lac, Wis., the former a brother of the groom.

The young people are motoring to Pontiac where they will reside.—Lake County Times, Hammond, Indiana.

WOMANS CLUBS MET IN GRAYLING

What has been an anticipation for some time proved a splendid realization on Monday, when in response to an invitation from the Woman's Club of our city, a number of ladies representing the Monday Club of West Branch, the Study Club and Clef Club of Gaylord and the Good Fellowship Club and Delphian Society of Grayling, came together for a reciprocity meeting. The weather was very inclement, but nothing as insignificant as rain can keep ambitious club women at home, and so there were some sixty-four women who registered at Michelson Memorial church, the place of meeting.

From three to five o'clock an informal reception was held. The Sunday School room had been made home-like and cozy with wicker furniture and baskets of chrysanthemums, and here the ladies became acquainted.

At five o'clock the guests were invited to the dining room. Here the decorations were surely most beautiful and artistic. The color scheme was pink, white and green; pink and white crepe paper ribbons were festooned above the tables which had been arranged with a large round table in the center and the other long tables circling around the center table like the spokes of a wheel. Each table had a centerpiece of beautiful white chrysanthemums. Between the tables were white pedestals with pots of ferns on them, while around the room were small pine trees. After the guests had found their places by means of hand-painted place cards, they were served a most delicious three course banquet, ten young ladies doing the serving.

After the banquet the following responded to toasts: Mrs. Peter McNeven, vice president of the Woman's Club presided, Mrs. Esbern Olson, president of the Club being ill, and unable to fill the chair. Mrs. Parliament, Monday Club, West Branch; Mrs. Ford, Study Club, Gaylord; Mrs. Morford, Clef Club, Gaylord; Mrs. Michelson, Grayling; Mrs. Schumann, Good Fellowship Club and Mrs. Doty, Delphian Society, Grayling. Interspersed in the program were vocal solos by Miss Rodgers and Miss Perry.

The ladies were then escorted to the School Auditorium, which had been opened to the public, to listen to a lecture by Prof. Bruum of Ann Arbor on "Education and Life." Prof. Bruum gave one of the most interesting and impressive lectures that has been given in Grayling for some time. His happy manner and excellent delivery made the hour pass rapidly and the audience were reluctant to have the speaker close. Preceding Prof. Bruum's lecture, two very interesting numbers were given, the first a beautiful violin solo by Mr. Anstett, followed by a solo dance by

Helen Schumann, which was enthusiastically applauded and to which she responded with an encore. After the program at the School, the ladies returned to the church where a lunch was served and a general good time enjoyed.

Ten years ago the Good Fellowship Club entertained with the first reciprocity meeting and since then meetings have been held in West Branch, Gaylord and again this year in Grayling, the Clubs being the guests this year of the Woman's Club. The meetings are not only profitable in an intellectual and social way, but bring the ladies together that they may become better acquainted with each other.

The following were out-of-town guests: Mrs. Burt Parliament, Mrs. Charles Morse, Mrs. J. Atwood Whitaker, Mrs. R. J. Beeby, Mrs. W. G. Hubbell, Mrs. John Payne, Mrs. John To're, Mrs. Etta Morrison and Mrs. C. E. Kenyon, all of West Branch; Mrs. Lillie E. Sexton, Mrs. Nellie M. Wilson, Grace Inman Morford, Grace E. Jacobs, Daisy M. Menzies, Mrs. Nunah M. Ford and Mrs. Rose Murner, all of Gaylord; and Mrs. Wilhelm Raabe of Johannesburg.

MAY TAKE COAL IN TRANSIT.

Fuel Administration Sends Out Priority List.

I designate the Director General of Railroads and his representatives to carry into effect the said order of January 14th, 1918 and to make such diversions of coal which the railroads carry in their possession as may be necessary in the present emergency to provide for the requirements of the country in the priority set out in the preference lists included in the order of the United States fuel administrator of May 25th, 1918, as follows:

a—Railroads. b—Army and Navy together with other departments of the Federal government. c—State and County departments and institutions. d—Public utilities. e—Retail dealers. f—Manufacturing plants on war industry board preference list. g—Manufacturing plants not on war industry board preference list. h—Johbers. i—Lake. j—Tidewater.

This order to be effective at once. Signed, H. A. Garfield, U. S. Fuel Administrator. H. Shearer.

Gave Enjoyable Halloween Party.

The members of the W. B. A. and their guests spent a very enjoyable evening at the G. A. R. Hall last Thursday evening.

When the merry makers arrived at the hall in all manner of costumes the fun began.

Dancing, music, games and all sorts of fun were the amusements of the evening. Prizes for costumes were awarded Mrs. A. Bahoff, Mrs. Fred Parent and Miss Oppenheim. About midnight a delicious served lunch was prepared by the Refreshment Committee and served to the 75 merry makers present. Mrs. Sat. district deputy for the W. B. A. was present for the occasion.

BREAK PREDICTED IN COAL STRIKE

WASHINGTON OFFICIALS BELIEVE MINERS WILL VOLUNTARILY RETURN TO WORK.

NO FUNDS FOR IDLE WORKERS

Efforts to Settle Strike Continue At White House—Strike Order Must Be Rescinded.

Washington.—Official Washington was firm in the belief Tuesday that the end of the coal strike was near. There was nothing definite or tangible in the way of actual developments to justify this hopeful view of the situation, but everywhere the feeling prevailed that influences were being brought to bear to have the strikers, numbering more than 400,000, return to work.

Scattered reports from the fields, reaching into 28 states, showed the first breaks in the ranks of organized labor in West Virginia and Colorado. Advice to Washington headquarters of the operators said all non-union mines were working to full capacity.

Some of the operators' reports said union men had gone to work in non-union mines and that there was growing sentiment that the men themselves should have had the right to vote on the strike before it was ordered.

The sweeping powers of the federal court injunction in cutting off all strike benefits is being relied upon by the government to bring the strike to a speedy end. Local representatives of the United Mine Workers of America were notified that checks to cover expenses of the last half of October could not be sent at this time because of the court's order.

Idleness of the miners with no funds available for their support makes it doubtful if they can hold out for any extended period, according to the view of men familiar with strike conditions.

Continued pressure is being brought to bear on officials of the mine workers to call off the strike. Definite assurance has been given union officials that President Wilson and Attorney General Palmer stand ready to attempt an adjustment of the controversy that led to the strike as soon as the strike order has been rescinded.

339TH DEAD ON WAY HOME

Most of Bodies Sent From Russia Are of Michigan Men.

New York.—Bodies of 111 American soldiers, who died in Northern Russia during the campaign of the 339th infantry, will reach this port next Sunday, November 9, on the Hake Daraga.

Upon arrival here, the dead will be taken over by the bureau for the disposition of bodies, attached to the port of embarkation headquarters, then the next of kin will be asked by the government what they desire to have done with them. If relatives desire it, and so notify the military officials, the bodies will be shipped to any point in the United States prepaid.

In case no reply to the telegram after a reasonable time has elapsed, the bodies will be buried in the National cemetery at Cypress Hills, Brooklyn, N. Y.

Most of the bodies are of Michigan men, the army reports.

REDS IN U. S. WELL ORGANIZED

Senator Lusk Says Overthrow of Government is Sought.

New York.—America today is facing the grave menace of organized treas. on financed from abroad and drastic measures should be taken immediately if the country is to be saved, according to a statement made by Senator Clayton R. Lusk, chairman of the New York legislative committee investigating bolshevism.

"The published and unpublished investigations of the committee prove conclusively that there is at the present time in this country a movement to overthrow the established government by violence and revolution," said Senator Lusk.

"The men and women who are back of the movement do not seek to better the conditions of any class of people here. Their object as revealed is to break down industry, overthrow representative government and create a condition of disorder and disaster which will accrue to their benefit in their ambitious scheme of industrial and political conquest."

Germany Must Pay For Sinking Ships

Paris.—The Supreme Council of the Peace Conference has decided to force the German Government to pay the full value of the warships sunk in Scapa Flow through the surrender of government floating dry docks and naval and commercial material. This action is taken on the advice of the sub-naval committee investigation which recommended placing the blame for the sinking squarely on the German government rather than on the officers commanding the fleet.

NOTES OF THE GRAYLING SCHOOL

(Edited by X, Y and Z.)

"Shun idleness, it is the rust that attaches itself to the most brilliant metals."—Voltaire.

The Eighth A Civics class are making a special study of the United States and State courts.

The Eighth B class are taking their final review in American History and are preparing for Michigan History.

The Senior High had two and one-half days' vacation while the Teachers attended the State Teachers' Institute held in Detroit last week. All of the teachers reported "here" Monday morning, in spite of the fact that they hated to leave their many "friends" in Detroit and nearby towns.

The Freshman Class seem especially honored this year; the walls of the Assembly room are tinted "green." The boys are very enthusiastic about Basketball. They intend to win "loads" of games.

The Helvetians used a "Ford" to cross the River Rhone, as Miss Wells says.

Did you know—That Marshall Holliday lost his glasses? That Lawrence Larive had a new suit?

That Eugene Karpus curls his hair on the curling iron? That Janet Matson plays Basket ball?

That there is going to be a merry-go-round at the circus? That Jennie Karpus can ride a horse?

Three of the teachers nearly got left on the back platform, when the train pulled out of Detroit Sunday night.

Will someone please donate to Room 34 not less than five pieces of chalk, so that the French students will be able to put the French sentences on the board? Sil vous plait.

Miss M. (Geom).—"I can't understand how an angle can be a right angle when it's on the left side."

This is better speech week at school. It doesn't seem to affect such phrases as—"I seen, they done it 'ain't right, and many others that float on the breeze in the Assembly."

The American Literature students were informed that for every proper

noun not capitalized, they would be marked down 1 per cent on their test standing. One student started to capitalize every noun so as not to miss any of them, but found to her sorrow that a common noun capitalized counted off also. Such are the trials and tribulations of a school girl in Grayling High School. Mr. Otterbein, 15 minute period in the morning:

Fee, fi fo fum,
I smell the blood of a tardy one.
Be he absent, or be he late,
I'll see him in the office, sure as fate.

Sixth Grade—Miss Lockwood, teacher. Marion Reynolds from Rose City has entered the Sixth grade.

The Sixth grade went "Over the Top" in the Roosevelt campaign.

Second Grade—Miss Austin, Teacher. Last Tuesday morning, readers, spellers, and pencils were put away, while the little folks enjoyed a Halloween party. The first part of the morning was spent in games, and the last part in bobbing for marshmallows that were in flour. After this game had progressed for a few moments, the children were a sight to behold. Ghosts were a mere trifle compared with the floury faces in that room.

Ford THE UNIVERSAL CAR

The Ford Sedan, with electric self-starting and lighting system and demountable rims with 3 1/2-inch tires front and rear, for every day in the year has no equal as a family car. Just as popular on the farm as it is in the city. In fact, it fits the family demands in every vocation of life. Large, roomy seats, finely upholstered, plate glass windows make it an open car in pleasant weather, while in rainy and inclement weather it becomes a closed car, dust-proof and rain-proof. It is not only comfortable, but really cozy, and above all, economical in operation and maintenance, and has all the Ford merits of strength and durability.

WOMAN'S NERVES

**By Lydia E. Pinkham's
Vegetable Compound.**

Winona, Minn. — "I suffered for more than a year from nervousness, and was so bad I could not rest at night; I would lie awake and get so nervous I would have to get up and walk around and in the morning would be all tired out. I read about Lydia E. Pinkham's Vegetable Compound and thought I would try it. My nervousness soon left me. I sleep well and feel fine in the morning and am able to do all my work. I also recommend Lydia E. Pinkham's Vegetable Compound to make weak nerves strong." — Mrs. ALBERT SULTZ, 688 Elm Street, Winona, Minn.

How often do we hear the expression, "Among women, I am so nervous, I cannot sleep," or "It seems as though I should fly." Such women should try Lydia E. Pinkham's Vegetable Compound, and give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial.

For forty years it has been overcoming such serious conditions as displacements, inflammation, ulceration, irregularities, periodic pains, backache, dizziness, and nervous prostration of women, and is now considered the standard remedy for such ailments.

Should more definite information be desired it will be well to write the Detroit depot at the address mentioned.

The Red Cross Halloween party at the school house last week Friday night was not as largely attended as their parties have usually been but this did not deter any from the pleasantness of the affair. About a hundred persons were there. The ball room was decorated with handsome Red Cross posters and large white canvas sheets each with a large red cross in the center. The music was furnished by Pat's orchestra of five pieces and they filled the bill to the entire satisfaction and pleasure of all present. A buffet luncheon was served by some of the ladies. There were delicious sandwiches, fried cakes and coffee. The dance and refreshments brought in \$24.00. Out of this the following expenses were paid. Orchestra, \$16; Model Bakery supplies, \$2.52; School janitor, services night of party, \$2.50; Mrs. LaBrash, services, \$1.00; The Simpson Company, supplies, \$2.40; H. MANY DEATHS DUE TO WOOD ALCOHOL

Increases in Fatalities and in Blindness Recently Shown by Records.

WARNS OF PERIL IN USE

Committee for Prevention of Blindness Begins Nation-Wide Campaign of Education—Many States Take Action.

New York.—The increase in the number of deaths and cases of blindness resulting from the drinking of wood alcohol as a substitute for grain alcohol has caused the National Committee for the Prevention of Blindness, 130 East Twenty-second street, to send warnings broadcast throughout the country. The records in the office of the committee show more than 1,000 cases of blindness in the country resulting from wood alcohol covering a period of several years, according to Gordon L. Berry, field secretary. This record is admittedly incomplete.

In recent months, Mr. Berry said, there have apparently been more deaths than cases of blindness resulting from the drinking of wood alcohol, due, he said, to the larger quantity taken by the victim. Upward of twenty-five deaths have occurred in New York City and vicinity since Jan. 1. Similar conditions are said to prevail in all parts of the country.

Edward M. Van Cleave, managing director of the National Committee, declared that the use of wood alcohol for drinking purposes had increased to an alarming extent in every state in the Union, no section being exempt from its use by those ignorant of its dangers. The purpose of the National Committee is to educate the people to the danger, as laws regarding the sale of wood alcohol can be evaded.

Regulated in Many States.

Mr. Berry said that twenty states have passed laws for the regulation and control of the sale and use of wood alcohol, either through pure food legislation or through the pharmacists. However, it has been found that the laws have not been rigidly enforced, he said, and, besides, if enforced would not entirely stop the sale and use of the dangerous spirits for beverage purposes. In nearly every state, he said the druggist is required to label "Poison" on every bottle of wood alcohol that is sold, but this does not prevent the use of it in any manner the purchaser sees fit. In New York city, the ordinances of the health department provide that "it is unlawful to use this alcohol in any article of food, beverage or medicinal or toilet preparation intended for external or internal human use."

The city authorities have several times called attention to the increase in the last few months of the use of wood alcohol as a beverage and efforts have been made through the health department to enforce the ordinances. Several months ago Dr. Charles E. Norris, a city medical examiner, sent a letter to Health Commissioner Cope land telling of several deaths from wood alcohol in New York, and offering his assistance in a campaign to prevent the sale of the spirits for drinking purposes. Dr. Alexander O. Gessler, as chief medical pathologist, also brought to the attention of the health department and the public generally the increased number of deaths from wood alcohol.

Fumes Also Harmful.

The increase in the use of wood alcohol for beverage purposes is said to have started with the increase in the price of whisky during the winter and with the wartime prohibition of July 1. The action of wood alcohol is very much like ordinary alcohol, except that it is more severe. Within a few hours after drinking, acute headache is noted, usually accompanied by violent attacks of vomiting, pains extending over the region of the kidneys, and excessive dizziness. Vision may become impaired, total blindness occur, and death itself result. Harmful action of this poison may also be induced by breathing its fumes, and by absorption through the mucous membranes of the body.

The wood alcohol used in the United States is obtained chiefly from the destructive distillation of birch, beech, maple, oak, elm and alder. The chief uses to which it is put are for the denaturing of grain alcohol; for various purposes in lines of common manufacture, (especially as a solvent in the preparation of shellac, varnish, dyes, etc.) as an ingredient in medical and pharmaceutical preparations; in the chemical industries and as a fuel and illuminant.

POLAND SHORT OF STOCKINGS

Bare Legs and Bare Feet Necessarily the Rule in Both City and Country.

Warsaw, Poland.—Bare legs are the custom throughout these regions. Probably not one in five of the poor own stockings and many not even shoes except the wood-soled sandals strapped on bare feet. Adult women bare legged and barefooted are to be seen everywhere, not only in the country but in the streets of Warsaw and the other large cities.

Only a Cold

Are you ill? It is often answered—"Oh! it's only a cold." As if a cold was a matter of little consequence, but people are beginning to learn that a common cold is a matter not to be trifled with, that some of the most serious diseases start with a cold. As soon as the first indications of cold appear, take Chamberlain's Cough Remedy. Remember that the sooner you get rid of your cold the less the danger, and this remedy will help you to throw it off.

Lay a bet on rolling 'em with

PRINCE ALBERT

the national joy smoke

ROLLING your own cigarettes with Prince Albert is just about as joy'us a sideline as you ever carried around in your grip! For, take it at any angle, you never got such quality, flavor, fragrance and coolness in a makin' cigarette in your life as every "P. A. home-made" will present you!

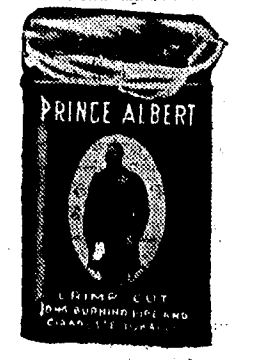

Prince Albert puts new smokenotions under your bonnet! It's so delightful rolled into a cigarette—and, so easy to roll! And, you just take to it like you been doing it since away back! You see, P. A. is crimp cut and a cinch to handle! It stays put—and you don't lose a lot when you start to hug the paper around the tobacco!

You'll like Prince Albert in a jimmy pipe as much as you do in a home-rolled cigarette, too! Bite and parch are cut out by our exclusive patented process. You know P. A. is the tobacco that has led three men to smoke pipes where one was smoked before. Yes sir, Prince Albert blazed the way. And, me-o-my, what a wad of smokeport will ripple your way every time you fill up!

Copyright 1919 by R. J. Reynolds Tobacco Co.

Awaiting your say-so, you'll find tippy red bags, tidy red tins, handsome pound and half pound tin tumbler—and that classy, practical pound crystal glass humidor with sponge moisture for that keeps Prince Albert in such perfect condition!

THE CALL OF THE COUNTRY

Michigan farm lands are favorable to most varied agriculture. However, agriculture, stock raising and dairying are the dominate occupations. Some of the finest agricultural areas of the world are found in the glacial plains of Michigan. We will be glad to mail you a description or show you excellent farms, orchards, clay pasture lands and ranches in the state.

OUR CHARGE ACCOUNTS ARE NOT EXPENSIVE THINGS

Not even to us.

Certainly not to our customers.

Of course, once in a blue moon someone forgets to pay a bill and moves to Montana—but accidents will happen.

We don't think of charging these slight losses to our other customers any more than if our delivery wagon broke down we'd charge them for the repairs.

And compared to our customers' convenience and their appreciation of this service of ours the so-called "cost" of carrying credit accounts is nothing at all.

Prove it for yourself.

Come into our store and see whether our prices are higher than in stores which will not give you credit.

Then consider all the other services we perform for you the best groceries and provisions we can buy.

And the benefit of our thorough knowledge of the grocery business. We know the reliable brands and we tell you about them.

For example there is Ryzon Baking Powder. When the General Chemical Company placed Ryzon on the market we were eager to try it. They called it the "Perfect Baking Powder" and once we tested it we knew why.

It is 40c per full pound.

Ask us about the Ryzon Baking Powder Book of 200 tried recipes—they're the best we've ever used.

THE FIRST OF A SERIES OF DANCING ASSEMBLIES WILL BE GIVEN AT TEMPLE THEATRE WEDNESDAY EVENING, NOVEMBER 10, FEATURING COLLEY'S FAMOUS JAZZ ORCHESTRA OF DETROIT. EVERYBODY IS INVITED. DON'T MISS IT. BESIDES THE DANCE IT WILL BE AN EVENING OF MUSICAL TREAT. ADMISSION: GENTS 80 CENTS LADIES 30 CENTS, INCLUDING THE WAR TAX.

Last Sunday afternoon when Mr. and Mrs. Frank Donnelly of Luzerne were driving to their farm a few miles from their home, their auto got stalled on the up-grade of a hill. Mr. Donnelly got out to crank the car and requested that his wife hold her foot on the brake. In some manner her foot slipped from the brake and the car started down hill and backed onto a knoll and tipped over pinning Mrs. Donnelly beneath one of the seats. The lady was pretty badly bruised, but, however not seriously injured. The car escaped with a broken windshield and other minor parts.

Wednesday night Rev. William J. Vincent of Lapeer gave an address in the School auditorium in behalf of the Red Cross, which organization is now in the midst of a membership campaign. There were but few out to hear Rev. Vincent, however those who were present enjoyed a real treat. He first gave a very interesting review of organization of the Red Cross, following this he told of the work of the organization during the Great war, the position he occupied enabling him to gain first-hand information that was very interesting to listen to. The present task of the Red Cross is to finish the job in Europe by remaining until every American boy was back home, aid in looking after their welfare and aid them in their wants and problems until they have come to their own again in civil life. Besides all this they are to keep intact their wonderful organization for public health work, and also to be prepared for service in any emergency that might arise. M. Hanson, the treasurer of the county chapter, gave a very glowing report of the work the local chapter has done since its organization in May, 1917. He also gave a statement of the financial matters of our Chapter. It is hoped that this may be published in this paper in our next issue.

Refused Insurance

Mr. Dunning Left Service in Bad Shape, But Doan's Soon Corrected His Trouble.

Geo. Dunning, ex-Chief Postmaster of the U. S. Navy, 470 Medford St., Somerville, Mass., says: "Every bit of trouble I suffered from my kidneys was a result of exposure at sea. I was retired practically an invalid. My kidneys became more irregular all the time and some nights I was forced to get up every half hour. The kidney secretions became like fire and were filled with brick-dust-like sediment. My joints swelled and were inflamed. I could hardly get over to the bathroom and had to be helped up and down. Right after my retirement from service I tried to get insured, but was turned down because of kidney trouble. I began taking Doan's Kidney Pills and used sixteen boxes. By that time every sign of kidney trouble left me and my joints were like iron; I got an ache or pain left. I tried for insurance again and was declared a good risk. I give Doan's Kidney Pills credit for putting me in perfect health. Subscribed and sworn to before me."

BELCHING

Caused by

Acid-Stomach

Let EATONIC, the wonderful modern stomach remedy, give you quick relief from disgusting belching, food-repeating, indigestion, bloating, gas, flatulence, dyspepsia, heartburn and other stomach troubles. They are all caused by Acid-Stomach from which about nine people out of ten suffer in one way or another. One writes as follows: "Before I used EATONIC, I could not eat a bit without belching it right up, sour and bitter. I have not had a bit of trouble since the first bottle." Millions are victims of Acid-Stomach without knowing it. They are weak and ailing, have poor digestion, bodies improperly nourished although they may eat heartily. Crises of disorder are liable to follow if an acid-stomach is neglected. Cirrhosis of the liver, intestinal congestion, gastritis, catarrh of the stomach—these are only a few of the many ailments often caused by Acid-Stomach. A sufferer from Catarrh of the Stomach of 11 years' standing writes: "I had catarrh of the stomach for 11 long years. I never found anything to do me any good—just temporary relief—until I used EATONIC. It is a wonderful remedy and I do not want to be without it." If you are not feeling quite right—lack energy and enthusiasm and don't know just where to locate the trouble—try EATONIC, and see how much better you will feel in no time. All drug stores—a big box for 50c and your money back if you are not satisfied.

"I'm afraid you haven't much of a town here, my friends."

"What's wrong with it, stranger?"

"Well, you have only half a dozen ramshackle stores and about the same number of dwelling houses. The most substantial building I see is the little red depot over there."

"Maybe you're right, stranger; Chicago isn't much for looks, but," continued the resident as he straightened up and his eyes flashed, "I'd have you understand that this is the home of an American 'ace.'"—Birmingham Age-Herald.

COAL STRIKE TIES UP STATE MINES

ENOUGH EMPLOYEES TO PROTECT PROPERTY PERMITTED TO REMAIN AT WORK.

GOVERNMENT SEIZES ALL CARS

Railroads, Acting On Orders From U. S. Coal Administrator, Confiscate All Fuel Shipments Enroute.

Lansing.—Michigan's 16 soft coal mines were tied up simultaneously with those in other parts of this country by the strike of the United Mine Workers of America, Nov. 1.

William Stevenson, president of the Michigan miners, said Monday:

"Every mine in the state is closed. The district is 100 per cent union. Necessary employees for the protection of mine property are at the mines in accordance with the provisions of the scale agreement. The miners will stick until they have won the strike."

All coal enroute to municipalities throughout the state was seized, immediately after the strike went into effect, by the railroads acting on orders received from the United States Coal Administration. The coal was held at the disposal of the government for distribution to industries and institutions which are on the priorities list.

Michigan's 2,400 soft coal miners are not in the central competitive field made up of Ohio, Indiana, Illinois and western Pennsylvania but are in what is known as the outlying district. Miners of this state do not play any part in the deliberations of the central competitive field, but they are bound by its decisions and agreements and will participate in any benefits this field may secure.

Fuel Rationing Starts

Detroit.—Distribution of available supplies of coal here will be accomplished with due consideration for household consumers, public institutions and industry, according to official announcement made by W. D. Trump, federal terminal manager for the railroad administration, who is directing coal distribution here.

In the meantime, dealers through the Detroit Coal Exchange, have appealed to the government for release of as much of the coal consigned to them, as possible.

RAILMEN WANT LABOR PARLEY

Ask Immediate Industrial Conference—Back Coal Strikers.

Washington.—Immediate steps for assembling at Washington an industrial commission to deal broadly with present turbulent conditions, was suggested Saturday by the advisory board of the Brotherhood of Locomotive Engineers.

Deploping "attempt at government by injunction," as a means of settling the coal strike, the board, speaking for 85,000 members, declared injunction proceedings would make conditions worse "and defer, if not defeat, a peaceful settlement."

The board stood out for an industrial commission that would recognize the rights of all citizens and not be pledged to oppose collective bargaining.

Its statement was considered a direct outgrowth of the miners' walkout, and was prepared after full and careful consideration of all questions leading up to the break between operators and mineworkers.

DETROIT RAISES CHARITY FUND

Subscriptions Totalling \$5,250,000 Are Sought For Relief of Needy.

Detroit.—"Five Million in Five Days" was the slogan of the 4,900 Detroit men and women volunteer workers, who set out Monday morning on the second annual campaign of the Detroit Patriotic Fund.

Mayor Couzens issued a proclamation calling on every citizen to do his part toward making Detroit a better city by subscribing his full share to the fund. The community, he said, should be willing to provide for its helpless and unfortunate as it was to care for its soldiers and others during the war.

The total amount of the Patriotic Fund budget this year is \$5,250,000, apportioned as follows:

Detroit Community union, to complete 1919, \$488,000; Detroit Community union, for 1920, \$1,500,000; American Red Cross membership roll call, \$200,000; Salvation Army peace-time fund, \$135,000; foreign relief, \$664,000; capital expenditures for building program, \$1,989,500; reserve fund, \$275,500.

War Hero Enrolled At U. of M.

Ann Arbor, Mich.—Harold Furlong, Detroit, several times honored by the French and the American governments, for distinguished service in the late war, has just entered the University of Michigan as a literary student. He is the owner of the Congressional Medal of Honor, the French Legion of Honor, two Croix de Guerre with palms and was one of the 100 men chosen by General Pershing as model soldiers of the war. Furlong was in the 89th Division.

Foreign Financiers Visit Detroit

Detroit.—Detroit will be host Nov. 12 and 13 to a party of about 75 leaders in finance and industry representing England, France, Belgium and Italy. Members of the party were delegates to the International Trade Conference at Atlantic City two weeks ago and are now touring the United States in a study of industrial conditions and methods. The party will come to Detroit from Chicago after visiting Pittsburgh, St. Louis and other large cities in the Middle West.

RAILROAD RATES AID PACKERS

Investigation Shows "Big Five" Can Ship Cheaper Than Competitors.

Lansing.—Big reductions to Chicago packers in freight rates through use of their own refrigerator cars thereby discriminating against the wholesale grocers in Michigan and other states, and prompt scheduled service in the delivery of grocers commodities, while competing wholesale grocers obtain no such service by ordinary railroad facilities, which advantages have contributed in part to the unprecedented growth of the packers' business in unrelated lines, are the principal features in the evidence which Assistant Attorney General Thomas G. Ballie brought back with him from the interstate commerce committee hearing held in Chicago.

There are certain commodities known as "packing house products," which may be shipped in refrigerator cars of the company with fresh meats at the fifth class freight rate. The packers now mix with such consignments other "unrelated products," such as canned goods of all kinds and other staple grocery lines which may as well be shipped in ordinary box cars. But by using the refrigerator cars they take advantage of the rate.

BOIL COLD PACKED PRESERVES

Housewives Warned to Avoid Liability of Poisoning.

Detroit.—Marian H. Rogers, home demonstration agent of the department of agriculture, and home economics of Michigan, has issued a statement to educate housewives regarding the danger of poisoning through cold packed canning. He says:

"The poison formed by bacillus botulinus is destroyed by ten minutes boiling, according to extensive tests. 'All danger of this poisoning from products canned by cold pack method may be easily averted in this way: you need not feel uneasy about using any of your vegetables or fruits which you have canned this summer by the cold pack process if you like this simple precaution.'"

The danger of the use of cold packed preserves was shown in the recent death of 5 persons who ate ripe olives at a banquet given at the home of Murray W. Sales, Grosse Pointe millinaire.

VIRGINIA GETS FIRST TROOPS

Overseas Division Sent to Patrol Coal Strike Area.

Louisville, Ky.—A provisional battalion, 800 strong, composed of veterans of the first division, were sent last Friday to the coal fields of West Virginia in anticipation of possible disorder attending the strike of miners there. Other troops were held in readiness to be sent whenever needed.

Infantry and machine gunners make up the riot battalion, along with the necessary medical detachment and staff officers.

Ammunition was taken for extended service, said Maj. Gen. Charles P. Summerall, commander of the first division.

STEEL STRIKE CLAIMED BROKEN

Operators Say Mills Are Almost in Full Operation.

Chicago.—Additional mills are operating at the South Chicago steel plants and the statement of F. A. Newton, general superintendent of the Illinois Steel Co. mills, that the strike, now in its sixth week, is broken so far as that place was concerned, was added to statements of Gary steel mill operators and strike leaders that the strike there is lost.

The commissary system by which needy steel strikers and their families are being rationed under the direction of the national strike committee is working satisfactorily according to an announcement from steel strike headquarters at Pittsburgh.

"Workless Support" Losing Favor.

Berlin.—The "workless support" bonus that thousands of men and women are now drawing in Berlin and Germany is proving a heavy drain on the treasury—and it is charged that the bonus is so high that many men who in peace times were unskilled workmen now receive more pay for idleness than for working. Complaint is made that this bonus system has become a deeply imbedded cancer that sucks millions of dollars from the government.

Toutons Admitted to Labor Meet.

Washington.—With only the French capital delegate opposing, the International labor conference decided to admit representatives of Germany and Austria immediately upon their arrival here to full membership in the world labor organization. Louis Guerin, who cast the only negative vote, declared a distinction must be made between "barbarian" nations that regard a treaty as a "scrap of paper" and Allied peoples who had fought for the cause of freedom.

Soldier Charges "Reckless Waste." Grand Rapids, Mich.—Martin Vermeris, a former service man, who has just returned from France, charges that hundreds of motor truck engines were wilfully knocked apart and thrown into the junk heap, that brand new automobile bodies were placed in piles and burned, that touring cars were dismantled, torn down and made over into officers' pleasure and racing cars and that waste, wilful and unwarranted, was the order of the day in American camps.

British Warships Carry Travelers. London.—British commercial travelers and the representatives of business houses are to be permitted passage aboard every British warship leaving the country for abroad. This, according to Sir Hamar Greenwood, under secretary for home affairs, who made the announcement before the Association of British Chambers of Commerce, is "a move unique in the history of the empire." Walter Hume Long, first lord of the admiralty, has given his assent to this service.

U. S. WATCHING FOR REDS IN COAL WAR

FEDERAL OFFICIALS ORDERED TO REPORT ALL RADICALISM TO GOVERNMENT.

435,820 MINERS QUIT WORK

Rail Brotherhoods Threaten Walk-Out If Government Pushes Present Anti-Strike Activities.

Washington.—Instructions have been issued by Attorney General Palmer to all United States attorneys to keep closely in touch with the situation in their districts and promptly advise of any concerted action "by any two or more persons to limit facilities for transporting, producing, supplying, storing or dealing in coal, or to exact excessive prices."

While no official explanation of the order was available, one purpose aimed at was understood to be to prevent radical agitators among the idle coal miners obtaining a leadership.

The strike of the miners went into effect on November 1, in direct defiance of an injunction issued by Judge Anderson at Indianapolis, ordering the union leaders to withdraw the order calling the strike. The governments contention in procuring the injunction, was that the United Mine Workers are bound by an agreement which is in effect until the Peace Treaty has been signed.

Reports from mining fields, stretching from Pennsylvania to Washington state, showed that the strike, order was generally obeyed by union men, while non-union mines remained in operation. In the central competitive fields, the union stronghold, mines were all closed.

Figures, based chiefly on union leaders' claims, showed that 435,820 men obeyed the strike call.

E. O. Davison, secretary and treasurer of the International Machinists union, said that the United Brotherhood of Railroad workers would stand behind the miners in the strike. Davison said that ballots had been sent out for a strike among the members of the railroad unions affiliated with the A. F. of L.

He gave the intimation that the members of these organizations plan to strike in the event that the government uses its war powers "to handicap" the local coal miners or other labor units, or pushes the present anti-strike activities.

Within 12 hours after the coal strike began, its effects were felt in New York City. The Lackawanna Railroad announced the discontinuance of 18 trains, and officials of the Erie called a meeting to consider similar action.

Senator Lusk Says Overthrow of Government Is Sought.

New York.—America today is facing the grave menace of organized treason, financed from abroad and drastic measures should be taken immediately if the country is to be saved, according to a statement made by Senator Clayton R. Lusk, chairman of the New York legislative committee investigating bolshevism.

"The published and unpublished investigations of the committee prove conclusively that there is at the present time in this country a movement to overthrow the established government by violence and revolution," said Senator Lusk.

"The men and women who are back of the movement do not seek to better the conditions of any class of people here. Their object as revealed is to break down industry, overthrow representative government and create a condition of disorder and disaster which will accrue to their benefit in their ambitious scheme of industrial and political conquest."

Fight Follows Attempt to Arrest Alleged Law Violator.

Detroit.—In a battle between game wardens and friends of Peter Gonyeau, accused of violation of the game laws, Saturday night in Gonyeau's saloon at Kew-Forest, Harry Brandenau of Bay City was fatally shot in the abdomen by County Game Warden Charles Daniels. Daniels had been severely beaten before he used his gun.

The fight was precipitated by the attempt of Warden Daniels and Deputy State Game Warden Chris Milbacher (current Gonyeau after he had been caught in the act of selling wild ducks to Detective Roy Canner of the Michigan Central detective force.

U. S. to Push H. C. L. Campaign. Washington.—Many new arrests in a number of states for violations of food and fuel control laws are expected soon by the department of justice. Attorney General Palmer made it clear that the government's preoccupation with the coal strike had not slowed up the campaign to reduce living costs. Since the criminal amendments to the food and fuel control law have been added, the department of justice has been preparing to prosecute cases.

Man About Town Need Not Have Wasted His Sympathy on Seemingly Unsophisticated Youth.

"During the state fair" requested the man about town, "I was riding north on a High Street car. Yes, it was crowded. As we approached the Union station a young youth, with foot-top trousers, green suit, red necktie and unrazored lips, leaned over, as we stood together in the front vestibule, and asked me if that place you younger might be the depot. I assured him that it was, wondering to myself if he would be able to get through the mob at the station without having his pocket picked."

"A moment later the youngster, whose innocence had so impressed me, explained that he was looking for a friend from Greenfield on the 11:40 train. 'We've come over to take in the cattle show at the fair grounds,'" he added.

"I prided myself on directing him carefully as he got off the car, but worried, nevertheless, when I thought what an easy mark he would make for a sharper."

TEAM-WORK FOR CHILDREN.

By Emily V. Hammond.
As a child I learned a Latin quotation which has always stood by me and which I have had occasion to use with grown-ups as well as with children. The translation is this—"In essentials, unity, in non-essentials, liberty, in all things, charity." If all team work could be carried on in the spirit of this wise counsel, think of the petty quarrels and big feuds that might be avoided!

We mothers cannot begin too early to teach our children to "play fair" and to work together harmoniously; to emphasize the essentials of life and not to quarrel about the non-essentials.

In the kindergarten the children learn in a very practical and effective way, although they probably could not state it in so many words, that the chain is only as strong as the weakest link. If Tommy is disobedient and pulls Sally's hair, then the harmony of the circle is suddenly broken. The other children are quick to appreciate this and when the next one is called upon to select a partner for a game, you may be sure Tommy is not chosen. Soon he begins to feel his exclusion, and it does not take him long to put cause and effect together. In the future he will think twice before pulling Sally's hair!

Treatment such as this proves far more effective than the kind usually administered by an older person. Most children are born with a keen sense of justice, and do not protest at having to suffer the just consequences of their wrong-doing, especially when meted out to them by a tribunal of their peers. This suggests that it is often a wise plan to keep hands off and let the boys and girls adjust their own differences. This helps to promote a good team spirit.

When the children leave kindergarten it is most important to foster their love of playing and working together in groups. I know of no better organization for the purpose than the Boy Scouts and the Girl Scouts. The former takes boys of 12 and over and the latter starts with girls of 10. The Girl Scouts also have an organization known as Brownies which looks after little girls from 6 to 10. Any parent wanting to know more about the Scouts can obtain their handbooks at headquarters: Boy Scouts of America, 200 Fifth Ave., and Girl Scouts, 527 Fifth Ave., New York.

The Scout motto, "Be Prepared," is a great incentive to boys and girls alike to get together. To make the troop strong each boy and girl must develop strength of character, for we cannot have any weak links in the chain. With an efficient captain in charge to hold aloft a high ideal of service there are no limits which the Scouts may not attain. It will be a fortunate day for this country when there are kindergartens and Scout troops in every city and village of the land. These kindred organizations will help to unite children in all walks of life. They will instill principles of freedom and justice and, above all, will inspire, through work and play, a spirit of comradeship which is indispensable to the welfare of a great democracy.

Help to reach all the parents of the country by cutting this out and passing it on to a friend.

A Good Cough Medicine for Children.

Mrs. J. W. Phillips, Redon, Ga. phoned to J. M. Floyd, the merchant here, for a bottle of Chamberlain's Cough Remedy and said she had bought a bottle of it at his store recently and that it was doing her children so much good that she wanted to keep up the treatment. You will find nothing better for coughs and colds in children or for yourself. It keeps the cough loose, expectation easy and soon frees the system from the cold.

Constipation.

Most laxatives and cathartics afford only temporary relief and should be used only for that purpose. When you want permanent relief take Chamberlain's Tablets and be careful to observe the directions with each package. RED CROSS GIVES FULL ACCOUNTING

War Council Tells How Millions Contributed by Public Were Used For Relief.

BIG TASK IS DESCRIBED

In Twenty Months \$164,000,000 Was Spent Overseas and \$119,000,000 in the United States.

Washington. (Special).—Through a complete report of the work of the American Red Cross in the war by Chairman Henry P. Davison, on behalf of the war council, the organization on the eve of its annual enrollment of members during the Third Red Cross Roll Call, November 2 to 11, has rendered an accounting of the many millions given it by the American people to help our fighting men and our allies. The statement is, in part, as follows:

"The war council of the American Red Cross is now prepared to make a complete accounting to the American people of money contributed and expended, as well as the work done by the American Red Cross during the period in which the war council was in control of its affairs. The war council was appointed May 19, 1919, and went out of existence February 28, 1919.

"It was the practice of the war council to give complete publicity to its policies and finances, but it is only now that a picture of the war period as a whole can be presented. It is the feeling of the war council that a report in this summarized form should be made directly to the public which provided the money and gave the effort which made the American Red Cross a success.

"A statement of the American Red Cross effort and finances since the war council relinquished its control will be made to the public through the executive committee, and it is important, therefore, that the fact that this report covers the period only until March 1, should be carefully noted."

Following are certain round figures covering American Red Cross participation in the war, as revealed by the war council's report:

Some Outstanding Figures.

Contributions received (material and money). \$400,000,000

Red Cross members. 3,715,777

Adults. 20,000,000

Children. 11,000,000

A Bargain in Good Reading.

Thirty-five volumes of the best reading—in weekly installments—for less than five cents a week. That is just what The Youth's Companion offer for 1920 really means. The contents of the new volume, which will include 8 serial stories, over 200 short stories, fifty or more articles by men of great attainment, sketches, special departments, and so forth, would make 35 good volumes (at \$1.65 each) if published in book form.

Not a line is waste reading. You get something always worth remembering, worth using as a guide to your thoughts and actions.

If you subscribe as soon as you see this notice, you will receive all the extras mentioned in the following offer, including the opening chapters of Harry's Herd, a fascinating, 10-chapter story of life on a cattle ranch.

New subscribers for 1920 will receive:

1. The Youth's Companion—52 issues in 1920.
2. All remaining weekly 1919 issues.
3. The Companion Home Calendar for 1920.
4. All the above for \$2.50.

McCall's Magazine for 1920, \$1.00—the monthly fashion authority. Both publications for only \$2.95.

THE YOUTH'S COMPANION, Commonwealth Ave. & St. Paul St. Boston, Mass.

New subscriptions received at this office.

Anyone wishing to buy white yarn may procure it at the Red Cross rooms in the Salling Hanson Co. store, at 60 cents a skein.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is cataracts. Cataracts being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Cataract Medicine is taken internally and acts thru the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have to go to the curative power of Hall's Cataract Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, etc.

Chamberlain's Cough Remedy.

This remedy is intended especially for coughs, colds, croup and whooping cough. From a small beginning its sale and use has extended to all parts of the United States and to many foreign countries. This alone is enough to convince one that it is a medicine of more than ordinary merit. Give it a trial and you will find this to be the case. Adv.
